Formation of Credit Unions Allowed in Measure Introduced in Legislature—"Reasonable Interest" in Borrowing

Establishment in this province of credit unions or "baby banks" is provided in a bill introduced into the legislature on Wednesday by Hon. Ernest C. Manning, provincial secretary and minister of trade and industry.

Speaker

First reading was given the bill by the house. The bill formed one of seven brought into the house on Wednesday, bringing the total now before the members to 32. They are in various stages of progress.

Moving first reading of the Savings and Credit Union bill, Mr. Manning declared that there was no provision in the existing legislation of the province whereby such unions could be organized. Although a bill is not yet printed and its details are not available, the minister, questioned outside the house, said his bill was similar in a general way to acts passed in Saskatchewan, Nova Scotia and other provinces.

UNION IN OTTAWA
The civil service at Ottawa also has a credit union, he said. It is provided in the bill that shares in a credit union can be purchased at a maximum share cost being \$5. Provision also is included for a \$5000 limitation on various investments, such as housing quarters or real estate. It was learned from other sources that a credit union can be organized and incorporated by at least 10 persons.

HON. JAMES G. GARDNER
Federal minister of agriculture, who arrives in Edmonton today for the Edmonton East federal Liberal nomination convention in the Memorial Hall at 830 Victoria St. evening. Hon. Mr. Gardner will be the principal speaker. James A. MacKinnon, M.P. for Edmonton West, will also speak.

Hon. Mr. Gardner's address will be broadcast over radio station CFRN (960 kilocycles) starting at 9:30 tonight.

Liberals Name Candidate For Vote Tonight

Plans for the Liberal nominating convention for the East Edmonton Federal Liberal riding, to be held tonight in the Memorial Hall, were completed on Wednesday at a meeting of the party constituency executive in the Alexander block.

Presided over by A. R. McLennan, president of the association, the first duty of the convention will be to select a candidate who will carry the Liberal banner in the by-election of March 21 next.

Following the balloting, addresses will be delivered by Hon. James G. Gardner, minister of agriculture at Ottawa, and by James A. MacKinnon, Liberal M.P. for West Edmonton, and Alberta's Liberal representative in parliament.

The Liberal candidate who will address the convention briefly. The convention gets underway at 7:30 in Memorial hall, 323 delegates and as many alternates will be seated in the main part of the hall. Visitors will be admitted to the rear section, up to the capacity of the hall to accommodate the large crowd expected.

Scheduled to arrive in Edmonton Thursday morning, Hon. James G. Gardner, a passenger on the C.N.R. train derailed Wednesday at Capreol, Ontario, was not expected to arrive into the city until a few hours before the convention, but is flying part way to get here for the meeting.

Hon. convention address will be broadcast over CFRN beginning at 9:30 p.m.

SOCRED MEMBERS AT OTTAWA WILL ASK CLEMENCY

By THOS. WATLING
Exclusive to Edmonton Bulletin
OTTAWA, Feb. 17.—The Social Credit members of parliament are drafting a petition to parliament asking clemency for Powell and others. They have secured the advice of constitutional authorities that this action is within their powers and as the petition will be prepared at once.

Not only the Social Crediters but other members of the legislature are expected to sign the petition and it is expected that all the C.C.F. and other independents will sign and possibly some of the Conservatives and Liberals.

Charges Workmen's Funds Insufficient

Three Plans Offered by Member Duggan for Rehabilitation—Means Restoring Old Interest Rates

PERIODICAL GRANTS ALSO INVOLVED
Containing that the Workmen's Compensation Board was "insolvent" due to the reduction of interest rates by the provincial government and adoption by Edmonton and Calgary of the Fortin plan of debt refunding—a contention that immediately brought a challenge from Premier William Abernethy—D. M. Duggan, Alberta Conservative leader, in the legislature on Wednesday, submitted three avenues lay open to the government to make up pension fund shortages to meet future requirements.

Mr. Duggan was a member of the special house committee which investigated one of the causes of the deficit in the Workmen's Compensation fund. He was one of the few members to vote in favour of the Fortin plan of debt refunding.

South of Province and Most of Saskatchewan At Full Production

Ottawa, Feb. 17.—(AP)—About 90 per cent of the "so-called good agricultural land" of Western Canada is now under cultivation, with Saskatchewan already approaching full production, the Agriculture Department announced today.

There was "no very accurate" statistical data available on the point except from the municipalities themselves, but it was estimated that \$3,000,000 were under cultivation in the three prairie provinces, said Dr. Archibald, director of experimental farms.

Dr. Archibald said that the question of agricultural development was a statement by Hon. J. G. Turner, Saskatchewan agriculture minister, that practically all of the good stable land in the west had been put under cultivation.

WOULD SUBSCRIBE. "I think our department would subscribe to that view, although Dr. Archibald has pointed out that in actual data on the subject," Dr. H. Burton, deputy minister of agriculture.

Dr. Archibald said the department would not take as definite a view regarding Alberta, after visitation of the province by Mr. Turner, was that there were still substantial areas suitable for agricultural settlement.

"The idea that the western prairie would be able to support 30,000,000 people on the basis of the land now in production is far too optimistic," he said.

"Yes, with present crops and present methods of production, the prairie could support 30,000,000 people, but the population of the prairie in the future," he said.

"It is a very important question," he said.

Chief Ritchie, a dog lover himself, sent an investigator to see "Riley" He found it was a mistake.

Mr. Lacy Wain, the dog's owner, had misinterpreted a police officer's remark that the dog should be muzzled but he only needs a muzzle while in the afternoon and on the street.

ANOTHER DEADLOCK

The upshot of the recall proceedings in the Ontario-High River constituency is that the Government is holding \$200 it doesn't want, and those who circulated the recall petitions are holding the rest. The recall is a dead end, and those who know just what to do with them. The logical course would be to send back the petitions and get the recall money. But the Government is willing to make the exchange, but the forms have not come in, and the money is being held.

Perhaps the deadlock is that, since nothing came of the proceedings or can come of them, some who signed the petitions do not want their names made public. The Government is willing to make a deal, but the forms have not come in, and the money is being held.

Not everyone likes to be put in the limelight to no purpose. Then the recall money is being held. The Government is willing to make a deal, but the forms have not come in, and the money is being held.

THE PRICE OF PEACE

Prime Minister Chamberlain and Mr. Anthony Eden are said to be at odds as to the rate of speed at which they should proceed in attempting to bring about the reconciliation of Germany and Italy.

They appear to be agreed for what reason. He knows that it is the special duty of the British Empire to bring about the reconciliation of Germany and Italy. He knows that it is the special duty of the British Empire to bring about the reconciliation of Germany and Italy.

Fifty Years Ago

From the files of the Edmonton Bulletin.

The idea of visiting the Yukon during the coming summer to join in the search for gold now in progress seems to have taken form for a number of young men in the city.

When the Yukon was first explored in 1822, the yearly average surplus of cash in Eastern Canada, which had found an outlet in the Yukon, was estimated at \$100,000. It was estimated that the investments made in the Yukon were \$100,000.

DO SOMETHING

Reports from the Hanna district show that stockmen there are facing ruin unless prompt means are taken to supply them with feed. The prospect, unless the Hanna district is supplied with feed, is a living on the range. The ranchers, badly dealt with by the depression, are in position to buy feed at distant points and import it.

Both cattle and horses, it is said, have in cases been shot to save them from starvation. The prospect, unless the Hanna district is supplied with feed, is a living on the range. The ranchers, badly dealt with by the depression, are in position to buy feed at distant points and import it.

AFTER THE PLAYBOYS

A mild thrill of apprehension will run along Canada's millionaire row in Nassau as the news from Toronto, that James H. Hepburn has been looking up the records of the playboys of the world, is received.

The playboys of the world, it is said, are looking for \$1,000,000 a year in taxes because many of his favored sons have built palatial homes in the Bahamas, spent the winter there, and incidentally—purely incidental, of course—avoid the duty of making out income tax returns and sending along cheques. Where the Premier proposes to take matters over with Ottawa and even if something can't be done about it.

Today's Text

He that belittles on Him is not contented with Him. (Matthew 23:12)

Today's text suggested by Rev. S. Westell, Norwegian Lutheran church, Edmonton.

Today's text selected by Rev. W. G. Macpherson, Presbyterian church, Camrose.

plutocratic exiles—from Ontario and other provinces—and make them pay federal income taxes on the wealth they accumulate in Canada and spend in their business homes in the United States. Hence the assumption that Ottawa will be in a receptive mood on the subject of ways and means.

Hence also the mildness of the apprehensive thrill among our migrant millionaires at Nassau. Having side-stepped the tax, federal and provincial, thus far, they will not be so easily alarmed by the Dominion of Ontario. Governments go into a huddle over the question of how to collect. Still, a fugitive can never be quite at home. Particularly, one hopes, a fugitive of that particular breed. Past evasion is no guarantee of future immunity. The law sometimes has uncanny ways of finding out what it is looking for. It is impossible.

If Premier Hepburn and Hon. C. A. Dunning can round up that colony of delinquents, put them in the tax-collector's net, and then they will be the most popular men in Canada, which was supposed to be impossible.

HOUSE-BUILDING

There is possibility that Edmonton may not have any city-sponsored house-building scheme this year. Council decided evenly on a matter of detail Monday evening. Only a notice of motion to commission a study of the problem saved an enabling amendment from being struck out of the list to be submitted to the legislature.

The point of difference appears to be this. Ald. Bisset would like the city continue this year the policy adopted last year, of building houses for the city-owned by the city, with Dominion assistance under the Housing Act, and selling the houses on easy payment terms. Ald. Ogilvie would like a more ambitious idea. He would like the city continue building houses on its own account, but would have it also put money to private builders who want to put up houses under the city-owned plan. He would like the city to continue building houses on its own account, but would have it also put money to private builders who want to put up houses under the city-owned plan.

NEW ARABIAN NIGHTS AND DAYS

British broadcasting to the Arabs in Arabic was begun this month. . .

The Arabs are particularly singled out now because of their importance in the imperial trade route fight going on between the Italians and the British. In the aftermath of it is Mussolini's desire to force Great Britain to recognize his conquest of Ethiopia. The Arabs ought to be highly entertained, but it must be remembered that they have been told stories by Mussolini. The job is a heavy one to throw on the shoulders of the British Broadcasting Company, which is a governmental corporation never asked to ask a British listener whether he liked a thing or not. He took what he got and if the broadcast company thought more of his higher life than he wanted to think of it himself, all he could do was to get a short wave reception set and try and pick up something from elsewhere than his native land.

In all the history of human food I do not know of a single article having a more interesting story than cheese.

Probably it was first discovered soon after the beginning of the use of milk, as soured milk will coagulate and form a natural, though primitive, form of cheese. From this crude start, the art of cheese-making has developed.

Cheese-making in North America seems to have started with the wives of the early settlers and many of them were very skillful in making cheese for the family table. Possibly cheese was then used as a standby when meat was scarce.

MILLS MAYOR OF ATHABASCA

The hottest mayoralty contest in years was the feature of a recent municipal election that produced a close race in all eight civic vicinities.

The final count in the vote for mayor was 54 for Fred Mills and 50 for G. W. Meyer. There was one ballot discarded for being marked with a red pencil. This had been cast for Dr. Meyer, according to Returning Officer C. F. Shear.

Dr. J. E. Reel, dentist, headed the poll in the vote for councillor with 28 votes. Charles F. Garagosa was second with 24 votes. The other three were declared elected to council for the next two years.

Other candidates in the race for council were: P. H. Taylor with 18 votes and retiring councillor J. J. Matus with 37.

Men Elected To Camrose Council

Following were elected to the town council for 1938 term, A. E. Pearce, 240 votes; D. R. Francome, 180; Edward Mervin, 140; and S. McGrath, 84. Mr. Pearce being re-elected while Mr. Francome and Mr. Mervin were declared elected to the council after four years on the board. Mervin replaced P. O. Paulson, who did not run for office.

Hen Lays Egg Within An Egg

An egg within an egg is a hairy way of laying eggs on the farm of John Nimmich of Sask. Instead of finding two yolks in the unusually large egg as was expected, it was found that one small egg was laid around in the first shell. The smaller egg was perfectly formed and contained a yolk and white as usual.

Hamel Re-elected

Joseph A. Hamel, who terminated his two-year term as councillor for the village of Millarville last week, was re-elected by acclamation to serve another two-year term. He was the only one seeking office. Both Mayor J. A. Fisher and Councillor B. J. Drummond have another year to put in to end their terms.

Thorn Nominated

F. G. Thorn was nominated by acclamation as councillor for the village of Millarville. This brings Mr. Thorn's third term in office.

REVISION OF IMPORT LAW IS ENTAILED

Committee Working On Changes in System Since Last May Report

OTTAWA, Feb. 17.—A revised customs act based on recommendations of a five-man departmental committee will be introduced in parliament next session, it was announced in the House of Commons Wednesday by Hon. J. L. Riley, revenue minister.

It will be a complete revision of the laws governing imports, duties, drawback and the powers of the department of national revenues to set valuations for duty purposes.

COMMITTEE WORKING

Since last May a committee of chairman George Sedgewick of the last board, Norman Robertson, department of external affairs, Hector McKinnon, commissioner of customs, and C. P. Blair, for many years assistant commissioner of customs, has been working on the revision.

EDITH WRIGHT

All you amateur swing musicians who are planning to try out for a spot on Tommy Dorsey's NBC program might be interested to know that you're sure to share the same microphone with Edith Wright—if you survive the audition. Edith is the regular vocalist on the show.

ATTACK SYSTEM

Mr. Ross and Malcolm McLean (Lib.) yesterday evening in the national made no attack on the declaration of national emergency. Officials, but on the system of customs administration, the minister said.

THREE RULES

He laid down three rules which govern the department today: 1.—It should be regarded primarily as a revenue collecting agency and not a tariff-collecting agency. 2.—There should be no unnecessary barriers in the way of imports. 3.—Importers should be able to ascertain in advance with as much certainty as possible the duty they have to pay.

BONNVILLE People Protest Passenger Service

Vigorous representations for better passenger service on the Bonnyville line of the Canadian National Railway were made today by company officials by a delegation representing many Bonnyville organizations. The delegation was given a sympathetic hearing by Sherman Smith, assistant passenger superintendent, and Mr. Ingram of the C.N.R.

J. M. Dechene, spokesman for the delegation, represented the Bonnyville branch of the Chamber of Commerce together with J. N. Vallee and E. Leconte, vice-presidents of the Chamber of Commerce. Dechene said that the Bonnyville municipality, represented by Traffic, both passenger and freight, had been making the district backed up demands for a regular schedule and better accommodations.

STRAID COMING SATURDAY FOR SIX DAYS

Following were elected to the town council for 1938 term, A. E. Pearce, 240 votes; D. R. Francome, 180; Edward Mervin, 140; and S. McGrath, 84. Mr. Pearce being re-elected while Mr. Francome and Mr. Mervin were declared elected to the council after four years on the board. Mervin replaced P. O. Paulson, who did not run for office.

IMPROVEMENT MINE RESCUE BRANCH URGED

Continued from Page Nine

Mr. Ingram then said that if ten accidents or approximately 10 per cent were preventable by the proper use of oxygen and a type of hood that would stand a weight of approximately 500 pounds without bursting the head.

Continuing he said that "Some people authority say you cannot legislate for this. The committee think it is time that we should do it. It is a type of hood that would stand a weight of approximately 500 pounds without bursting the head."

NO ACTRESS

Picture actress Jeanette MacDonald, D.C. is Miss Marian Hepburn, 19-year-old sister of Hollywood actress Katharine Hepburn. Marian is in her third year at Bennington College, Ver. and right now she is working for John H. Lewis, affiliate union, the United Federal Union of America. Marian is a U.F.W. school official. She is a part of her college course, which explains why she is working in the U.S. Capital.

23-Year-Old Alley Cat Is Now Full Elk

SENeca FALLS, N.Y., Feb. 17.—Tommy, Dr. Clark's 23-year-old alley cat who has a full head of hair, has become a full-fledged elk.

Dr. Clark said today Tommy was a letter from W. F. Hurley, secretary of the Daytona Beach, Fla., lodge of the Benevolent and Protective Order of Elks, making the cat an official member of the organization.

INNSFALL Creamer Carries Off High Honors

Innsfall creamer carried off very high honors at the Dairy Men's convention recently held at Edmonton. In the special Creamer Contest, for the highest grade of butter, a 14-pound prize being the better award, the creamer carried off the high standard of butter produced by the local creamery.

LONG NON-STOP GOOD-WILL HOP TO PERU IS ON

MIAMI, Fla., Feb. 17.—A goodwill hop to Peru, starting from Miami, Fla., today carrying 100 passengers and 100 crew members, is the longest non-stop hop ever under way by Pan American Airways.

The distance from Miami to Lima is 3,132 miles. The military pilots of the board's latest classification of industry revealed some 34 groups of sub-branches, with medical aid rates varying from one half cent to 10 cents per shift. Highest ratings prevailed in the coal, lumber and road construction industries and had become a serious burden on workers employed in these industries. An analysis of the data revealed that unfavorable experience had existed in those branches of industry where the cost of production was high.
